

The Fisherman's Arms Share Club:**Secretary's Report:**

Alas! The Share Club is no more. The happy band of nine members would have liked to continue, but more red tape meant that brokers were becoming unwilling to service share clubs at a reasonable cost. Our brokers refused to continue, and the search for reasonable alternatives proved fruitless.

The good news was that all investors made money, and that we were even able to share our good fortune by a final meal at the Fisherman's Arms - where we plan to put a small plaque to remember this village society which ran from 1998 to 2026.
